□ [Default Mobile port or TCP port](#)

1. If you have one DVR, if you know the default mobile port, but not know which app can work with your DVR, you could refer to this sheet. For example, the default mobile port is 34599, so you could use Vmeye or Vmeye+, ect.
2. If you know which app can work with your DVR, but not know what its default mobile port is, you could refer to this sheet as well, if you didn't change it before.
